PARENT PROXY INSTRUCTIONS

All students can grant their parent or authorized payer access to a proxy version of Self Service, which enables the proxy user to access academic and/or financial information for the student. As such, parents will have access to view account activity and student statements as well as make online payments and set up payment plans on behalf of the student. Additionally, by granting proxy access, Quinnipiac University will email both students and authorized proxy users regarding important billing information.

Directions to authorize a proxy user are below:

1. Students must log into Self Service with their QU Credentials
   https://selfservice.quinnipiac.edu/student

2. Select User Options from the menu and click View/Add Proxy Access
3. Use the drop down under **Select a Proxy** to choose a current relationship.

4. Select the type of access you wish to grant (Allow Complete Access will grant all or you can pick individual areas). **Please note:** In order to grant access to account activity, view a student statement, and make a payment, make sure that all boxes associated with Student Finance are checked. Check the FERPA authorization box and save. That individual will receive an email with username and password information.
5. Later, you can edit those with that already have access by clicking on the pencil on the left and editing access or removing access completely.

6. If you do not see the relationship that you want to in the drop-down list, you can choose to add one.

7. Fill out all required fields and any others that will help make the record unique.
If you do not see the relationship you want, please choose **Proxy User**. Fill out the rest of the form, authorize and save. This time you will be required to re-enter your password (the same you used to log in).

One of two things will happen. If the record is unique, that user will receive their username and password. If it is not unique (matches another record we have on file) our team will review that request and take appropriate action.

The access you granted is now ready and that individual can go to [https://selfservice.quinnipiac.edu/student](https://selfservice.quinnipiac.edu/student) and login with their credentials. Upon logging in they can select the individual they want to view and then go to the appropriate area to get the data they need.

3. Once you set your new password, re-enter the password to log in:
4. Select your student’s name to proxy on their behalf.
